

MAN ON THE BOX IS WELL GIVEN

Redmond Company Gives A Good Show With Plenty of Features.

Ed. Redmond and his company at the Crawford give an excellent presentation of "The Man on the Box" this week.

All the principals are well cast, even to Louis St. Pierre, the scenic artist of the company in the role of the policeman who can do a lightning sketch of a dog, in oils, while waiting for the judge to appear.

Mr. Redmond himself appears in the role of a judge and makes a splendid part of it; later he doubles in the role of an army colonel and does as well.

Joe Kemper, as the young army officer masquerading as a groom, and Bobbie Dean, the daughter of a retired colonel, who engages the new groom for a lark, to punish him for an escapade, and then falls in love with him, have the leading roles and handle them in an excellent manner.

Peggy Betts, as the widow, does the expected when she fascinates the judge to such an extent that he gets to expose the young couple, for she makes a very fetching widow.

Orville Harris, as the lawyer, gives a most finished piece of work in his part, although it is but a small part.

Media Mitchell, Marion Hammond and Ed Young have appropriate well acted parts.

As usual, the song and specialty numbers incident to the progress of the play, go a long way towards making it a complete and enjoyable affair. Everybody is seen to good advantage and the beauty choruses and the feature numbers include the following:

The Suffragette Monopoly, the girls; Sketch in oils, Mr. St. Pierre; The Altimira Blues, Mr. Young and girls; "Faint, remember! Don't Let the Girl Get You, the girls.

SPRING FESTIVAL AT RESCUE HOME

Wortham Shows To Furnish the Attractions; A Queen's Contest.

April 1 to 6 inclusive, an El Paso Spring Festival will be held in this city for the benefit of the Rescue Home.

The "Great Wortham Shows" will furnish the attractions and some splendid features are offered, including a large animal circus, among other things.

Cooperation from a number of local organizations of women is expected, in order to make the affair a success.

A contest for a queen is to be one of the features. Candidates are being secured today and voting will begin at once. The voting contest will be continued until and during the carnival.

The queen is to receive a handsome diamond ring. There is to be a dancing platform under the auspices of some local organization, a country store, and a refreshment booth of some character also under local auspices, in addition to the shows furnished by the Wortham people.

The festival will be located on the vacant property on each side of West Overland street, west of Durango. There is a debt of \$2000 on the Rescue Home that must be cleared at once and it is hoped to raise most of the money needed for this debt with the Spring Festival.

The Wortham people come to El Paso with the highest recommendations from people on the Pacific coast, including the mayor of Everett, Washington; the publisher of the Portland (Ore.) Tribune, and the publisher of the Yuma, Arizona, and the Woodmen of the World, of Phoenix. The Wortham people have appeared under the auspices of these organizations.

The Victory Garden Is CELESTIAL FINE FOOD!

WHO would think of getting along without celery, the great American plant served fresh, in salads or in soups, says today's bulletin from the National War Garden commission of Washington. Celery likes best a low, rich black, mucky soil with plenty of moisture, but it will succeed on any good garden soil if planted at the right time and given good care.

For the early spring crop get the plants started by sowing the seeds in a seed box or in a pot. The plants grow rapidly so they will be ready to transplant into the garden as soon as the weather warms up a little and the soil is moist. If grown in rows should be 18 inches or more apart for hand cultivation and three feet for horse cultivation. The plants being six inches apart in the row, it may be grown in trenches four to eight inches if desired and the trenches be filled in gradually by cultivation as the plants grow. A free garden book will be sent to any one who writes to the National War Garden commission, Washington. A three-cent stamp should be sent for postage.

For small gardens the best way to grow celery is to use the ground very rich and set the plants six inches apart each way, making the bed as wide and long as desired. The plants then shade each other, except the outside ones, and the outside boards must be set. This method produces a good crop on a small space if the ground is rich with plenty of moisture.

Celery must have plenty of shallow irrigation so that it can keep tender growth. In the warmer sections the spring crop must be grown and planted before hot weather begins. When the plants are nearly grown, draw three or four inches of earth up around them and a couple of weeks before the plants are to be used blanket by use of boards set edgewise along each side of the row, and hold them in place with stakes or earth on the outside. Earth should not be shed alone to blanch the plants in hot weather. In the lower south it is a late fall crop, but in the upper south it is in hot weather. In the upper south it may be grown in spring and fall. Further north it is mostly a full season crop, depending upon the variety and time of planting.

Travelette
By NIKSAH.

THERE was, several thousand years ago, the mightiest city in Egypt. Today, in the mighty ruins of forgotten gods struggle for supremacy against herds of substantial visitors who pass on its broken columns and otherwise deface the landscape. The rightful awfulness of the temple of Thebes is stolen from them by the clutter and incongruity of the modern. But the Egyptian shrines triumph. They are mysterious in the face of visible explanations of their ruins. The temples fight to the end on the side of the gods they serve.

These neglected gods of Thebes were once worshipped by kings, who served them by condemning thousands of people to life sentences on a rock pile. Mountains of stone were planted with defiant and defiant of a proverbial sand foundation, all as a background for the vague gods whom the Egyptians were so eager to understand.

To the all-powerful gods, kings erected temples as gigantic as the builders would undertake. They are still there, mutilated by the hands of the king's successors to greatness. There are rows of pillars lifted up to support roofs that have long since fallen. On every side throughout the wrecked city there are temples and palaces long ago shattered and buried, and now mearns to live again for the benefit of a curious world.

WIGWAM—CHARLIE CHAPLIN.
The General Film Company has just released "A Night at the Show," one of Charlie Chaplin's funniest comedies. It has been about four years since it was first shown at the Wigwam, so it will be new to most of his admirers. This is the one in which Charlie imbibes a little too much and then goes to the theater. It is one of the liveliest that he has ever made.

Monday, Billie Rhodes, the dainty comedienne, in "Hoop-La," a circus romance, will be seen at the Wigwam. —Adv.

BJOT—COME EARLY.
The Bijou offers today one of the best programs ever shown at the popular movie house—Jack Pickford and Louise Huff, in Gene Stratton Porter's famous novel "Freckles," also a two reel comedy, "One Every Minute." Remember, stand out at the order of coming, but come early. —Adv.

BEAUTY CHATS

A Comely Wrist.

WHILE hands receive a good share of attention from those who take an interest in their appearance, wrists, somehow, seem to be neglected. A woman will most carefully massage her hands with cream or olive oil and spend plenty of time manicuring her nails—then go out with her wrists exposed to the winter air, with red rough-looking skin, and give never a thought to it.

An ugly wrist can spoil the prettiest hand and arm. There is not a great deal that can be done to improve it, but certainly it should not be neglected. The skin can be kept soft and white with cream, the same as the hand. Gloves should always be bought long enough to protect the wrist from chapping. If the wrist bone is quite prominent, as it mostly is with thin people, a little warm cocoa butter massaged in daily will do wonders. And in that case, the loose-wrist glove should always be worn.

Even a short one-clasp glove comes just to the prominent part of that ugly bone, leaving the thin wrist exposed and rather naked looking, and giving to the whole hand an awkward appearance. Whereas, the loose-top glove will extend some three inches above this spot, will hide the wrist completely and make the hand look much smaller.

Even an ugly wrist can be made flexible by bending exercises, which can be done at any time. Pianists, by virtue of their hours of practice, always have flexible looking wrists. And if yours seem quite hopeless, even after all this trouble, you need not despair. For you can always hide the wrists under long gloves!

Questions and Answers.
Wanna—Everyone who had the flu is suffering from falling hair. Send me a letter with a self-addressed stamped envelope for a tonic.

Thankful—Henna makes the hair Auburn, so if used at all it must be used all over the head. It is harmless, and has to be renewed about once every three months.

Louise—A hair tonic and massage is just what you need—see answer to "Wanna." Neither of the formulas you sent me is any use to me.

Smiles—Get your doctor to remove the hair depilatory powder to take hair from your temples. Correct your diet to cure the pimples; you'll have to get rid of them before you can treat the blackheads successfully. Your most becoming color is the exact shade of your eyes.

Want To Live To Be 105?—Just Eat Onions
Dwight, Ill., March 17.—How would you like to live to be 105 years old? It's easy. You can do it by eating onions. So Mrs. Mary A. Potter, aged 105 years, says. She celebrated her birthday recently by eating onions. Mrs. Potter is thought to be Illinois' oldest woman. She was born in New York state and is active despite her years. She participated in the recent war relief work here.

PUZZLING

A Dollar is today the subject of more interest than at any time we can remember. There is hardly a home in El Paso that is not puzzling over the Dollar question.

DOLLAR

LOLLY

AIR

The Globe has demonstrated many valuable lessons in connection with a Dollar. Now we are forming another plan which will be of interest to every person in El Paso who is interested in making a Dollar, saving a Dollar or having a Dollar.

These plans are not perfected yet. Probably they will be by tomorrow. At least we will have something to say on the subject—watch for our Adv. in this same space.
